Join us as we take a leisurely stroll and search along the shadowy streets and alleys of Gatlinburg to hear stories of the unexplained and strange. Hear about a number of haunted hotels and buildings in the downtown area, about a gruesome murder committed at a very famous hotel here and the young girl and security guard who still haunt it. Hear how Ratford Gatlin brought a slave woman to live with him and how he buried her upon her death behind their home and how she still oversees the building that is there. Listen to the tale of a young man who made a foolish mistake and continues to pay for it to this very day. Tour a cemetery that was built in 1830—a most frightful place indeed!
